SENIOR SCAM

On 4/26/06 at about 2:10PM, a suspect contacted the victim at the front door of a residence in the Starlight Pines neighborhood and advised he was there to fix a fence in the backyard. While the victim was in the backyard, another suspect entered the residence and stole property.

Beware of burglary scams aimed at distracting you in your residence while your property is stolen! A suspect will try to enter your residence by telling you he needs to access your backyard, roof, or trees. While you are with the suspect outside, another suspect will enter your residence to steal your valuables. Victims are usually elderly. If you have not requested such services, be cautious. If you suspect that suspicious activity is occurring, call **9-1-1 and do not let the suspicious people inside your residence!**
